Vybe Urgent Care

Veterans Hospital of Philadelphia (contact Deborah Capone-Swearer)

University of Pennsylvania

\*3/11/22: Addendum affiliation for Clinical Care Associates of the University of Pennsylvania Health System

Mainline Health System

\*\*\* Mainline Health System has a special approach to preceptorships. Each student has a separate affiliation. Student needs 3-4-month lead time. Please see below.

**If you have already secured a MLH or MLHC preceptor:**

- Please complete [this form](#) and enter your preceptor's full name when prompted
- Ensure you complete the entire form with all necessary information
- All students need an affiliation agreement between their school and Main Line Health
- Main Line Health will not accept university agreements, your graduate school will need to review and accept Main Line Health's agreement

**If you do not have a preceptor and are looking for a potential preceptor from MLH (Mainline Health)**

- Please complete [this form](#) during the application period appropriate to the semester you are looking to rotate
- We will inform you of a potential preceptor on or before the notification date associated with the application period
- There is no guarantee of a preceptor if you complete the form so we strongly recommend you continue to identify preceptors with the help of your school
- All students need an affiliation agreement between their school and Main Line Health
- Main Line Health will not accept university agreements, your graduate school will need to review and accept Main Line Health's agreement
- The agreement process can take 3-4 months to finalize in many cases and you may not begin your rotation until this is complete
- The agreement process can take 3-4 months to finalize in many cases and you may not begin your rotation until this is complete

**\*Institutions NOT accepting new affiliation agreements:**

1. Christiana Care Health System
2. CVS Minute Clinic
3. Nemours Children's Hospital DE

\*If you do not see the Preceptor's site listed, please be aware that there can be up to a 90 day time frame to obtain a new affiliation agreement.

\*Note many physician groups are affiliated with hospital systems so you need to find out if they are affiliated with a larger hospital system.

\*If we have an affiliation with a larger hospital system the primary care practices within that system can be considered for your preceptorships. Some primary care practices require a different affiliation so it is best to check with the specific primary care practice if this may be the case.
